Subject: Application for the Position of Junior Data Analyst

Dear Hiring Manager,

I am writing to express my interest in the Data Scientist position at [Company Name], as advertised. With over 2 years of hands-on experience in data analytics, machine learning, and business intelligence, I bring a results-driven approach to solving complex business challenges through data.

In my role at vijAI Robotics Pvt. Ltd., I led several AI-driven data analytics projects, developed predictive models, and mentored students in real-world problem-solving using Python, SQL, and Power BI. My experience includes designing dynamic dashboards, automating reporting workflows, and applying statistical methods to uncover actionable insights. Some of my key projects include price optimization, churn prediction, and sales forecasting using Scikit-learn and Power BI.

I am passionate about leveraging data to drive smart decisions and deliver measurable impact. My goal is to contribute to a forward-thinking team where I can apply my technical skills and business acumen to support data-driven innovation.

I would welcome the opportunity to bring this experience to your team and contribute to your organization's growth. Thank you for considering my application. I look forward to the opportunity to discuss how my skills and background align with your needs.

Warm regards,
Gaurav Bisht
